REQUEST FOR QUALIFICATIONS

Temporary Public Sculpture on the Garment District Plazas

PROJECT DESCRIPTION

The Garment District Alliance (GDA) is seeking artists interested in submitting their qualifications, preliminary concepts, and examples of their work to be considered for a temporary public art installation in the Summer/Fall 2017 on the outdoor plazas along Broadway in Manhattan's Garment District.

The plazas are a dynamic, highly visible focal point of the Garment District enjoyed by both a diverse local business population and international tourists. As part of a placemaking initiative, the GDA presents diverse programming ranging from gourmet food markets to performance art. To enhance this public environment and to increase community access to art, the GDA regularly presents sculptural art installations.

As part of the selection process, the GDA is inviting artists to submit qualifications, including examples of their recent work. Descriptions of project concepts for consideration are encouraged but not required in the artist's initial submission.

Following this RFQ process, selected artists may be invited to submit developed proposals including budgets for their installations. Of these, one or more artists may be selected to enter into an agreement to work with the GDA to install their work from approximately July through November 2017..

ARTIST AND ARTWORK CONSIDERATIONS

GDA is seeking to have **new or existing artwork** installed which will have strong visual impact and which will complement or otherwise enhance and highlight the public plazas and the Garment District. Works selected for installation will be outdoors for an extended period of time and exposed to significant and generally unmonitored pedestrian traffic.

Artists selected in this phase of the process will present their background, qualifications, and examples of their artwork which will establish their ability to present and install works with the following qualities:

- **Artistic Merit:** The artist's work must demonstrate a high standard of design and proficiency in their medium.
- **Site Suitability:** The artist's work must demonstrate that their work would be suitable to the environmental and social context in which it would be placed, including, but not limited to, concept, size and scale relative to surrounding environmental elements, and visual quality.
- **Durability:** The artist must demonstrate that their work would be constructed from durable materials suitable for outdoor installation. Works need to be weatherproof, require little or no maintenance, and not easy to vandalize.

SITE DESCRIPTION

The five public spaces of the Garment District Plazas project area are located on Broadway in Manhattan, between 36th Street and 41st Streets (36th to 37th Street, 37th to 38th Street, 38th to 39th Street, 39th to 40th Street, and 40th to 41st Street).

The plazas are paved with asphalt over a concrete base and painted. They were formerly part of the Broadway roadbed which has been transformed into places of public use and enjoyment. Lined with planters of bushes, trees, flowers and other plants, the block-length plazas feature tables, chairs, benches and umbrellas to create a park-like atmosphere in midtown Manhattan. There is no access to electricity or water on the plazas.

Situated between Times Square and Herald Square, the Garment District plazas are in one of the most heavily traversed and highly visible areas of Manhattan. Thousands of employees work in buildings around the plazas. With over two dozen major hotels, the area is a major pedestrian corridor for tourists and commuters. Additionally, as home of the American fashion industry, the district is an international market, bringing in tens of thousands of business visitors annually. On average, over 50,000 people pass through the plazas daily.

A map of the plazas is located on our website at <http://garmentdistrict.nyc/arts/plaza-art/> Artists are strongly encouraged to visit the Garment District plazas on Broadway before responding to this RFQ.

DOT APPROVAL

The GDA maintains and operates the Plazas through an agreement with the New York City Department of Transportation (DOT). All works will be subject to DOT regulations and approval by the DOT Public Art Program.

PROJECT BUDGET

The final project budget may be up to \$50,000. This budget will include engineering reports, insurance, shipping, installation, and de-installation. This budget also includes any artist or gallery fee for design and project management (planning and overseeing installation and de-installation). The GDA will be responsible, among other things, for permits, signage and promotion.
